

# IMPORTANT EMAIL NOTICE FROM INVISALINK

**PLEASE BE ADVISED THAT EFFECTIVE  
JULY 1, 2015, INVISALINK.NET EMAIL WILL NO LONGER BE  
AVAILABLE TO OUR CUSTOMERS**

***THIS IS EMAIL ONLY, ...OUR HIGH SPEED INTERNET  
SERVICE WILL REMAIN THE SAME.***

To our valued customers:

Due to massive changes in how the internet is being used, the volume of email being sent presently, and the growing number of viruses, malware and overall threats that are passed thru email. The email we have offered in the past, as a courtesy to our customers, has become impossible for Invisalink to continue to offer. So, like many other things that continue to change in our modern world, effective July 1, 2015...we will no longer be able to offer this courtesy email service. **THIS DOES NOT AFFECT YOUR INTERNET SERVICE.**

**THIS ONLY AFFECTS THOSE USING INVISALINK.NET EMAIL !**

***WHAT SHOULD YOU DO?*** Since Invisalink began providing high speed internet over 10 years ago, many free email services have become available. Here are some examples: Gmail(google) Yahoo mail, Hot-mail, AOL...to name a few. You can google search for any of these or other offerings, to find the best one to fit your needs. These services are run by very large companies that can and do specialize in email services. *They can provide a much more efficient, safe and convenient email experience than Invisalink can offer.* **Our primary business has always been providing you with quality high speed internet service, not email. WE WILL STILL PROVIDE YOU WITH HIGH SPEED INTERNET SERVICE.**

We are letting you know about this change several months before we stop the email service, in order to give you enough time to make changes now in how you use your email. You will be receiving this information several times leading up to the cut off date. We will also post this letter on our website.

Invisalink wants your internet experience to be the best possible, and this is another way to improve that experience. We regret any inconvenience this may cause.

Your continued business is appreciated,

Invisalink Management
